OF THE COMMUNITY

JOCK'S WAGGIN' TONGUE

Vol. 3 Thurs. Apr. 27 1939. No. 13
Jock McIntyre, Editor

LOCAL BUSINESS MEN PLEASE
NOTE—Late co-operation to get the main street clogged. It could be done for a very nominal sum and the benefits would be tenfold. We are more than willing to make a contribution for this purpose, how about you?

Our Summers say that he never knew what tractor farming was before he got his new W 40 six cylinder tractor.

The Marshall Wells ropal we can paint only is in full swing, although the weather don't lend itself to the cause, it continues until May 15th.

You are always welcome to our store, whether you come to buy, to look around, or just pass the time.

The fish stories have not started to pour in yet but we have a full line of equipment, bamboo poles, lines, steel rods and reels for those who like to play around and hook that would tempt you and I.

Fred Clever has a real good story they say, its something about peaches.

Used from equipment on hand for resale includes one 2200 N. P. McGray tractor, 10 ft double disc drill and one 12 ft Cockshutt cultivator. All at bargain prices.

Hurry up Jerry the boys have started getting warmed up for the game and the umpire will be calling play ball soon.

Wm. Penn and North Star oils and greases "Still the Best".

Walt Reacher of Ponoka (not hospital) was a visitor in town the other day. Walt says "this is a fine country".

The new Coleman speedmaster gasoline or coal oil instant light hot plate is here, is an article you have been looking and hoping for.

Albert Anderson of Claresholm is across getting in his early berry.

The municipal council surely have some praise coming their way for they have seen fit to equip a hall rest room in their new premises, that we feel sure will bring them much praise.

Special deal, a 4 gal grease gun, a filler pump and 2 gal of grease all at price that will surprise you. This gun and filler pump is the answer to tractor operators prayer.

Elections In Sight Is Belief

Premier Aberhart Gives Hint Of
Appeal

There is a provincial election a certainty within 14 months, according to an announcement by Premier Aberhart on Tuesday, addressing a meeting of his supporters and there also will be a Federal appeal within the same period, it is likely.

Social Credit groups are active, the local organizations were never disbanded, and can be counted upon to offer opposition to parties seeking control of the Alberta House.

From an analysis of the Federal situation this office secures information from all party head quarters, it would appear that the election for Federal members will be as keen as ever with the Conservative party ready for action with their new leader Dr. Manion. Leadership league movement headed by outstanding men and women in public life, the new reform party by Hon. Mr. Herdige and the Social Credit group of the west all will have an influence but it is reliably reported that Premier King is not worried over the situation in the least, quite confident that his party will be again given the mandate to carry on even although his unheeded of majority at the present time, may be cut down.

MAIN STREET

Mr and Mrs H. T. Lamont
were week-end visitors in Calgary

Mr. F. J. Glapp was a visitor in
Calgary this week on business

Mr. and Mrs R. Rinaldi and Mrs
J. Giacomuzzi, all of Blairmore
were Sunday visitors at the
home of Mr and Mrs A. Rinaldi.

A. W. Jopling has returned
from Calgary where he received
treatment.

Mr and Mrs Alexander, Mrs C.
Marshall and family motored
to Nanton on Sunday.

Dr. Wilson received word on
Monday of the death of his sister
Agnes of Park Miss Wilson
visited this district and was be-
lieved by all who knew her He-
sides Dr. Wilson she is survived
by two sisters one residing
in Perth another Mrs MacGill-
livray of Regina and another
brother Sympathy is extended
to Dr. Wilson

Champion Ladies Social Credit
it group will meet at the home
of Mrs. Norman Patterson Tues-
day 2nd, at 3 p.m. Those wish-
ing transportation be at the
church at 2.30 Mrs. Root will
address the meeting.

K. R. McLean, Optometrist
and Optician, 209 and 210 South-
ham Hill, Calgary will be in
Charmany at the Drug Store
Tuesday morning May 9th
and in Champion at the Drug
Store Tuesday afternoon.

Psychologists tell us that at
least 80 percent of the education
of a child during the first 12 years is obtained
through the use of the eyes. This being
true it is almost impossible to
over estimate the importance
of feeling assured that the eyes
are working properly and the
education of the whole child to
school being fostered by the
association of Optometrists at
once assumes its true valuation

Council during the past few
weeks have carried out an im-
provement policy of improvement. This
week the work of laying side-
walks and planting trees was
completed. There is a sidewalk
in front of every home in town
now and Council are to be com-
mended for the improvement.

High School pupils are spon-
soring a round trip ticket draw
to Calgary Results will be pub-
lished after May 18th Proceeds
are for school sport equipment

An advert. appears elsewhere
in this issue regarding the
branch of the Kelly Funeral Home.
Stephen W. Jones has purchased
the business and his experience
insures satisfaction. L.F.
Dawson a citizen of Vulcan for
35 years has been appointed an
agent for this district and will
give prompt service to all.

Mrs. Urquhart entertained at
two tables of bridge last week.

Mrs. Harry Smith has appointed
agent for the Marquis Flower
shop Letbridge. Orders given
Mrs. Smith will receive prompt
and efficient attention.

Howard Smith is visiting in
Calgary.

Clocks and watches will be
advanced one hour on Sunday
in all principal cities.

CREDIT HOUSE FOR CARMANGAY

It is reliably stated that Carmangay
is to have a Credit
House, operated by the provin-
cial Government. Location of
Carmangay as the point in this
constituency to have a branch
was decided at a meeting of the
directors held in Vulcan last
week, it is stated.

Interviewed Hon. Mr. Dawson
preferred not to commit himself
on the subject until such time
as the Minister, the Hon. Selous
Low visited the Constituency.
But a press despatch and inter-
views with Carmangay citizens
indicated that there was no
doubt about the branch being
located at Carmangay if present
plans were carried out.

Carmangay has been without a
bank for some time now and no
doubt citizens will welcome
this addition to their business
section.

Many To See King

Arrangements are advancing for
seeing the Prime Minister and
Carmangay and district are the King
on May 20th.

At a meeting held on Monday night
presided over by Mayor Henderson it
was stressed that all should register
with Mr. Henderson in order to know
how many are going. All tickets will
be purchased by Mr. Henderson.

While there has been a good
registration of village boys and girls
the response from the country is
rather disappointing and the com-
mittee would like a full knowledge of
the response from Calgary. Will
all teachers or parents make a list of
those intending to go and hand same
in to Mr. Henderson, or The Chronicle.

Canada's Financial Position Sound

Finance Minister Stresses Diffi-
cult Times and Pleads For
Co-operation From All

Hon. Chas. Dunning, minister
of Finance for Canada brought
down his budget for the fiscal
year in the House of Commons
on Tuesday. His report on the
deficit for the past year and for
next year's budget for the next
year. He made a plea for business leaders to ex-
pand in order to relieve the
government of the necessity of
embarking on work creating
schemes. He made it clear
that there was no fear for the
solvency of Canada and that a
sound business application was
being applied to monetary con-
trol through the Bank of Canada.

Hon. Mr. Dunning gave a
vivid picture of Canada's finan-
cial position, stressing the many
demands made upon the Federal
treasury for unemployment
relief, agriculture assistance
and the many other avenues of
expenditure all of which were
justified but costly. Twenty
five million was allowed for loss
to the treasury for the 80 cent
pegged price of wheat.

Principal tax change was the
removal of three per cent im-
port excise tax from all goods
entering Canada under the in-
termediate tariff.

Conscription For Britain

Announcement was made by
Prime Minister Chamberlain on
Tuesday that Britain would
embark upon Military compul-
sory service, the first class to
be called being those from 20
to 21 years. Objectors will be
allowed to go before a tribunal,
and plead excuse and be trans-
ferred to other national services

(Continued on Page Four)

New Course For Schools Mooted

Domestic Science And Manual
Training May Be Given Here

At a meeting of representa-
tives of the school Board of Ba-
rons, Carmangay and Champion
held on Monday night, inspec-
tor Williams explained the pro-
posal of having domestic
science and manual training
taught in the three schools
under an arrangement whereby
costs would be divided equally
between the schools.

Cost of the special teachers
which would work the three
schools, and possibly a fourth,
Nobleford, would not be more
than about \$3000 and the gov-
ernment would give a grant of
\$1500 towards this, and also
fifty per cent of the cost of the
equipment which might run
another \$200 at the most.

J. A. Gow, Dr. Wilson and
Mr. J. Kennedy all favored the
scheme if it was workable at all
the need being felt for such
teaching in the schools. The
Champion Board while not fa-
vorable found many difficulties
in the way, including class
room space and the extra cost,
even though it was divided be-
tween three or four schools.

Outcome was that each Board
will discuss the matter and if
favorable impression is gained
a further joint conference will
be held.

Further Williams stressed
the importance of this course
in the schools. There was an
urgent need of the schools turn-
ing out pupils fitted for life,
and under present conditions
the academic standing given
was not sufficient to enable
the boys and the girls who were
leaving the schools not prepar-
ed to enter life's battle as they
should.

The system of having travel-
ling teachers for this course
was being worked out satisfac-
torily elsewhere and it was
making it possible to introduce
the scheme where otherwise it
would have been impossible.

Canada Comes First

During the Great War of 1914-18 many rumors were rife of stories in circulation of espionage, sabotage and threats of no-appeal on the part of alien then residents in this country and in some cases it was found necessary by the authorities to take some action to curb anti-British and anti-Canadian activities in the interests of the country as a whole.

Once again, now that the world is again passing through a period of international tension and while war clouds hover alarmingly over a large area of the globe, similar reports are coming to hand indicating that in some parts of this country subversive influences are at work in an effort to undermine democratic government here and to give aid and comfort to a potential enemy.

Fortunately it can be said at the outset that the great bulk of Canadians are loyal to their own country, to the form of government that has been bequeathed them by their forefathers, to the fundamental principles of democracy on which this country has been founded and has been built, including those dearly bought privileges—freedom of speech, freedom of worship, freedom of the press and the right of free assembly.

To these tenets of the right to rule themselves and the right of individual freedom not only do the British-born elements of the community subscribe wholeheartedly and with passion, but also the vast majority of those who have come to this country from lands where other tongues are spoken, the great majority of whom have taken the oath to support and sustain the constitution of the country of their adoption, the hospitality of which they have sought and are enjoying, together with all the privileges and rights which go with Canadian citizenship.

During the Great War many of these people from other lands, including the countries with which Canada and Great Britain were at war at the time gave many evidences of their loyalty and love for the country which they had adopted. Many of them enlisted with the Canadian forces and served overseas, some of them with marked distinction, while others remained at home to render valuable services in standing those who were inclined to waver between two allegiances. Today, they and their children are honored and respected citizens of the country. Their loyalty to Canadian institutions and the Canadian form of democratic government is beyond all question and that supplies the overwhelming majority of these nationals.

In Our Midst

Unfortunately, however, Western Canada is giving harborage to a small minority, possibly a mere handful, who appear determined to do their utmost to exert a harmful influence upon their former compatriots, to create trouble for the authorities and who are taking advantage of the present uncertain international situation to undermine, in every possible manner, the government of the country.

Reports are reaching the press of the formation of secret, underground organizations of subversive character, of agitations being carried on by small groups and individuals, of seditious utterances, of espionage, of threats of sabotage and in one recent instance of a threat of death against the family of a war veteran who came out openly and condemned such nefarious activities.

Under all these circumstances and with such disquieting occurrences being ventilated it is not surprising that our veteran's organizations are passing resolutions calling upon the government of the country to take immediate steps to repress such activities and to demand the suppression of a foreign language newspaper published in this country which, if translations of its utterances are taken, is taking a strong anti-British stand in its editorials. While supporting the general principle of the freedom of the press, branches of the Canadian Legion take the stand that suppression of such organizations is taking a strong anti-British stand in its editorials. It is not surprising, too, to find that such occurrences at home, coupled with the tension overseas, is giving as a stimulus to the registration of war veterans who are not only willing but anxious to serve the interests of their country at home, as when their aid may be required. Such incidents are serving but to rally them to come forward in increasing numbers and register, which is precisely what must be expected.

Action Is Warranted

Recent events give good ground for the government's action in stiffening the law respecting espionage and the government would be quite warranted in adopting some of the measures recommended by war veterans' organizations to curb and suppress subversive influence and activities calculated to jeopardize the interests of good loyal Canadians and democratic government in this country.

Just what measures should be taken with this end in view is for the government to decide but whatever steps may be taken, it can be assumed without hesitation that the authorities will be accorded general support by the great majority of Canadians, and not only those of British birth but or practically all those who have come here voluntarily from other lands and have made this country their own and of their descendants.

It must not be overlooked that those who have adopted Canada as their country, who have accepted its form of hospitality and helped its freedom and who have sworn allegiance to this country and its constitution have virtually said, and mean it, that "Canada comes first".

Scientists Investigate

To Make Study Of The Youngest Loyal Servant Remembered In Her Lake In The World

An expedition of seven Russian scientists are now on their way to study the youngest lake in the world, which is 44 miles long and a mile wide, and 1,800 feet deep, was born only 28 years ago as a tremendous earth tremor which tore loose an entire mountainside room. He it was who summoned the Prince of Wales to her bedside when the end was near. Mr. Pittow, 1,000 feet above sea level, creating a natural dam.

A five-acre field of wheat will be grown and harvested on New York's Fair grounds this summer.

More Than An Advantage

Aviation Can Also Be A Threat To Any Country

Aviation and wireless are the two inventions of our times that have been the great revolutionary improvements in human communication; they have brought the people of the world very close to one another, and at once to their advantage and their peril.

Mr. McTaggart Cowan, a visitor here, points the moral and adorns the tale of one of these inventions. It is an extraordinary prophecy, but the statement of it, of course, is not startling at all. Mr. Cowan suggests, almost as a matter of course, that there will be another year of experimental flight and preparation, then a preliminary trans-Atlantic airmail service and then mail and passenger service together.

The progress of the newly-inaugurated Trans-Canada air line is the promise and the pattern of the extended service. The sort of work Mr. Cowan is carrying on at Bolton is an extraordinary prophecy, but the statement of it, of course, is not startling at all. Mr. Cowan suggests, almost as a matter of course, that there will be another year of experimental flight and preparation, then a preliminary trans-Atlantic airmail service and then mail and passenger service together.

The progress of the newly-inaugurated Trans-Canada air line is the promise and the pattern of the extended service. The sort of work Mr. Cowan is carrying on at Bolton is an extraordinary prophecy, but the statement of it, of course, is not startling at all. Mr. Cowan suggests, almost as a matter of course, that there will be another year of experimental flight and preparation, then a preliminary trans-Atlantic airmail service and then mail and passenger service together.

Aviation is at once the promise and the threat of the future. In the moral sense, as well as materially, the airplane is a double-edged sword, it overleaps all the old frontiers of land and sea.

We have realized Puck: "I'll put it in a nutshell about the earth in 40 minutes," but we have let Mercury and Mars come in on Puck's secret too. —Vancouver Province.

SELECTED RECIPES

MARTHA WASHINGTON'S DEVIL'S FOOD

(Three Eggs)

1 square unsweetened Chocolate

1 cup sugar

1/2 cup milk or sour milk

2 1/2 cups sifted Swiss Condensed Milk

1/2 teaspoon Calumet Baking Powder

1/2 teaspoon soda

1/2 cup butter or other shortening

1/2 cup sugar

1 egg, well beaten

1/2 cup buttermilk or sour milk

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

Melt chocolate over boiling water; add 1 cup sugar and 1/2 cup buttermilk and stir until smooth. Add sugar, soda, and salt, and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly. Add 1/2 cup sugar and 1/2 cup buttermilk and stir thoroughly.

HOME SERVICE

KNOW RIGHT WAYS TO TRAIN YOUR DOG

Two little puppies—eager to grow up to be smart, well-behaved dogs—were sitting on the porch of a house in the city.

It's not hard to teach a puppy to understand if you win his confidence during puppyhood. A good rule is not to punish him with the hand.

Time to begin, your puppy's "grown-up" schooling when he's about nine months old.

Easy then to teach such clever tricks as "shake hands!" When he's in a sitting position press your hand against the right side of his head.

His right paw will naturally rise, then you quickly grab it and say "Shake hands!" He'll soon get the idea.

Training goes much more quickly, is more fun for you and doggy when he is in a sitting position. To have an alert, healthy dog, know rules of diet, be able to recognize first signs of illness.

Give a simple direction for feeding, training, housebreaking, grooming—simple directions for teaching your dog jolly tricks.

Send for the coin for your copy of "How To Choose And Care For Your Dog" from the Home Service Dept., Winnipeg, Newpaper Unit, 175 McDermott Ave. E., Winnipeg.

The following booklets are also available at 12c in coin each:

171—"How To Plant and Care For Your Garden"

167—"Popular Cowboy Songs"

154—"Elizabetta For Young Moderns"

138—"Synonym For Every Day Words"

126—"Developing Your Personality"

Older Drummer Boy

A. S. Thompson At 33 Years Is With The Territorials

The British army's oldest drummer boy is 33.

He is A. S. Thompson, who joined the Territorials at 17, attained the rank of company-quarter-master-sergeant and then reverted to the ranks when he was 50.

Thompson just will not leave the Territorials. He knows that the regulations permit him to serve another five years as a drummer boy in the band, and he intends to take full advantage of them.

Trade routes of Asia Minor, which connected the east with the west about 2000 B.C., were the first highways known.

The hobbit net machine for lace-making was invented by John Lovers in 1809. John Lovers contributed an improvement to it in 1813.

Saved A Life

Quick Delivery Of Letter In England

Because a posted letter reached its destination in less than two hours, a woman's life was saved in England.

In the second morning mail a letter was received at the Gillingham (Kent) Post Office station saying:

"My the time you receive this I shall be dead."

The writer gave her name and address.

An inspector saw from the postmark that the letter had been posted only two hours earlier, so the police rushed to the address and found a woman lying on the floor. Now she has recovered in hospital.

Citrus Bread

Give credit where credit is due, and so we glad the citrus fruit growers of Florida. They are now even making bread containing two ounces of grapefruit juice. The claims for the new bread is that it abounds in vitamins and sticks to the stomach. Well—the bumper crop must be sold.

Moscow, Russia, claims that on an average every inhabitant took 100 rides on buses and street cars last year, nearly six times as many as the average London passenger.

In early times, according to Kaumani, a police clerk started his visit by kissing his foot, his knees, all his children, and the dog and cat.

The oldest extant Baskin play, "The Toy Cart," dates from the end of the second century.

New Machine Invented

Will Fill Sandbags At The Rate Of 700 An Hour

Men Think It Is The Best

The filling of sandbags is not part of the lighter side of the soldier's life. Old soldiers must have sweated and bled in some weeks ago that the War Office had ordered two hundred million (200,000,000) of the things from the jute mills of India. The very thought of so many sandbags waiting to be filled must have made many an old back ache and many an old soldier's head ache in anticipation.

Therefore blooded with the names of John Williamson, R. A. Winfield and T. C. Taylor, of the Air Raid Precautions Service at Northampton, England, who have invented a machine to do the job. Operated by four men, the machine can fill sandbags at the rate of 700 an hour. Hitherto, by sheer hand manual labour, three men could fill only 60 an hour.

Visions arise in the mind of increased leisure for the troops, till one remembers that the sergeant-major and the national enemy are probably already thinking up new schemes to give the soldier something to do in their spare time.

A Long Sleep

South African Woman Asleep For More Than 20 Years

Anno Swanepoel, a South African woman who has been almost continually asleep for more than 20 years, has been moved from her bed in the Chronic Sick Home, Rietfontein, to the Johannesburg General Hospital.

She had accepted the bed in 18 years. Attempts are to be made in the hospital to improve

LITTLE REST DAY OR NIGHT

Woman with Severe Neuritis

For the benefit of others who may be troubled with the complaint she writes:—

"Last May I had a very severe attack of neuritis in the leg, which made it impossible for me to rest during the day, and I got very little sleep at night, so say nothing of the intense pain."

Various medicines gave me very little relief, and a friend advised me to use Kruschen's tea, which had derived benefit from it whilst suffering similarly. I am thankful that I took her advice. From the very first bottle I felt relieved, and now I am quite free from pain, and get a good night's sleep. (Mrs.) H.C. Neuritis, like rheumatism, is often caused by acid, and is often caused by needle-pointed uric acid crystals, which form as the result of sluggish eliminating organs. Kruschen helps to convert these crystals into a harmless solution, which is removed through the natural channels.

CHAPTER VII.—Continued

Lynn Dana had written Sally Ann the night before: "As to your question—I don't know. Our queer dark, beyond all possibility of a doubt, epithet worships the air he flies in. As for the lady—he approves her utterly for her courage and cleverness, but he's flint-hard and hot-headed. If her heart's on her sleeve, he doesn't see it, and she has a nice young dignity and reticence."

Something did not quite suit Gunnar in Hermod's rhythm as they flew up the valley, and they came down at Oakland before crossing the bay. It needed only a moment's adjustment, but it took a little time.

"Tea, while we wait," the ace said. He hailed a taxi and put her in it, and they drove a couple of blocks. "Here! This will do!"

It was a shabby little eating-house with a menu written on chalk on a blackboard at the door.

"Wait!" Gunnar directed the taxi-driver.

"Sure," he said amiably. "Comin' in my self. Lo, Lena!" he greeted a big-busted woman with dyed hair.

"Here's tricks!" he said, and then he last save before the counter which brought him close to the woman with which issued heat and smiles.

"There sat her heart's on her sleeve and bread, honey," he ordered briefly.

The woman slammed down their plates and cups and Gunnar was buttering a thick slice of bread.

"Here's tricks!" he said, and then he last save before the counter which brought him close to the woman with which issued heat and smiles.

"There sat her heart's on her sleeve and bread, honey," he ordered briefly.

The woman slammed down their plates and cups and Gunnar was buttering a thick slice of bread.

a hissing whisper. "Nick, he's a great one to kill you know. On the level, are you Gunnar Thorwald and—that girl?"

"They were," they told him. Sarah Lynn gently, the Norwegian ace with a sudden friendliness which surprised her.

"You get back where you belong!" She took an order. "Stack it!"

"Hush!" Without a word he scuttled back into his unsavory domain.

Gunnar finished his bread and honey and drank off his tea. His eyes were narrowed to a gleaming blue slit. Then he stood up and walked back through the stuffy room, past the hunched figures feeding at the counter, and stuck his head into the steam and stench.

"So it interests you—flying?"

"Interested—say, boy! I read every scrap I can lay hands on, and I see every movie that's got flying in it, and when I stand here, hashin' and hear 'em go by in the sky—"

he stopped, gulping, his Atlantic apple moving convulsively in his strung throat.

The wife came back with a pile of soiled plates and pushed rudely past the flier. "Pop, you tend to business! Ten-bone and country fry."

The Norwegian looked through and beyond her. "Yourself would want to fly?"

"The little man put down a long pointed fork and clasped small pugny hands with broken and blackened nails. "Just once—before I die I wouldn't ask nothing more, I wouldn't."

"Come, then!"

It was all done in a flash. The aviator's arm which seemed to lift him bodily out of his flier trench and thrust him through the tiny restaurant into the taxi, the driver wiping his mouth, grinning, running after, jumping into his seat, Sarah Lynn, the Norwegian ace, and Gunnar, the staring customer, the woman emitting shrill staccato cries.

"Pop! Pop! You come back here, you crazy? Want to break your fool neck? Pop!" She began to whisper and hiss. "You let loose a him, Mister! I'll call a cop! You can't kidnap—"

They were rattling down the street, the little man wedged in between them, the unhealthy pallor of his face suffused with scarlet excitement.

Sarah Lynn drew Gunnar aside while the Hermod was being wheeled to the line. "It's a gorgeous time to do—and I adore it! Look at me! I'm so excited, I'm so excited!"

But Gunnar, he looks so sick—he has such a wretched color, and see how he breathes! I mean—suppose he has a weak heart—the put him out anxious hand on his arm.

He looked down at her, his gaze once stern and gay, reckless and reasonable. "Thinking still with fear of death. You have not life, then, while I told you? Let's see—"

"To be alive—that is nothing, unless life is good. Is he living in that foul air? Better death in clean air. We go!"

CHAPTER IX.

The Gate was richly gilded, bathed and burnished in a strong sun, sinking into the western sea in a moiten blaze of unbelievable glory. Pop perched on the edge of his seat, looking off, looking down. His unpleasant pallor was enhanced and there was a pinched look about his nose and mouth. He was breathing badly, but his eyes were enraptured.

He caught her scrutiny upon him and smiled at her, drawing a long, halting breath, tipping his head back, relaxing like a swimmer about to float on a gentle sea.

But Hermod frowned and eyed like a gull, dipped and rose again. Sarah Lynn pulled herself to attention. The recurrent danger was the fowl of the air and the fish of the sea was not a bird-like incoherence, but a business of infinite import.

Prairie Rose Culture

Many Choice Varieties Can Be Successfully Grown In The West

It is to be regretted that roses are not found in the prairie gardens and employed in beautifying the prairie home grounds more frequently than they are. Too often the cause lies, not in the climate, not in the roses, but in the people themselves. Many people have the erroneous idea that roses cannot be grown successfully on the prairie. Yet there are several varieties in the Briar and Rugosa hybrids that are quite hardy in the Dominion.

Experimental Station, Rosthern, Sask., and a few in the more tender Hybrid Perpetual class which can be grown with success provided a little winter protection is given.

In the tall and very hardy type, Betty Bland is in a class by itself. It grows from three to six feet high and is covered with medium sized double pink roses in June. The bright red branches add to its decorative effect. The Rugosa rose makes a useful landscape shrub. It is hardy and thrifty, with luxuriant deep green wrinkled foliage and large purplish to white flowers. Being of the perpetual blooming type, it can be depended on for a long season of bloom. Rosa Altica is a shrubby rose flowering plants with dense foliage and large creamy white flowers. Hansen, dark red, semi-double; Harrison's Yellow, semi-double, tall and hardy; Austrian Copper, bright red, semi-double; and F. J. Groot, endish with its clusters of small flowers and long season of bloom are all hardy here with little or no protection.

Rosa rubrifolia, the Redleaf rose, has attractive purplish red foliage which makes a good background for other roses or ornamental shrubs. It is not quite hardy here.

In the Hybrid Perpetual class which come through the winter when surrounded up with a cone of earth, good varieties are: Mrs. John Laing, rose pink, fragrant, lasting; Capt. Hayward, deep red; Frau Karl Druschki, an excellent white; Hugh Dickson, crimson; and the fine Hybrid Tea, Gruss an Teplitz, with its lovely red (Austria) and Adeline flowers and continuous blooming habit.

Several other varieties of Hybrid Perpetuals and a few Moss roses are being tested at the Rosthern Station.

On the ground, before, I had fear like a great sickness. In the air it left me."

Re Roy suggested her first flight alone in secret, but she decided against it. It was the Great-grown and Uncle Lynn and old Perry if they wanted to come, and at the last instant she whinnied to young brother Bill. Bill's freckles, standing out like brown polka-dots on his pale face were the last things she thought about as she walked over to the plane.

She slipped round to the further side, unobserved and laid her face against the Chinese lacquer red. "Don't be jittery, darling!" she whispered. "I won't even kick your nail-polish. I promise! I'll take you up like a swallow and bring you down like a hawk."

She got into the cockpit and went through the routine she had rehearsed again and again. It had become an integral part of her mental process.

The assistant sprang aside from the propeller.

"Clear, oh, clear! Forever and forever, life for the queer dark Dana!"

"Clear, oh, clear! Forever and forever, life for the queer dark Dana!"

"Clear, oh, clear! Forever and forever, life for the queer dark Dana!"

Editorial

SUPPORT THE RED CROSS

Provincial Red Cross is holding its annual appeal May 1st to May 6th and The Chronicle asks that residents of this district remember the Red Cross with a donation which may be left at this office, The Bank or The Provincial Red Cross headquarters.

The Canadian Red Cross is far more than a war time organization for it is always serving. Since 1922 it has given aid to 2,657 crippled children in this province. Hospital days given in 1938 amounted to 8,940. While the emergency relief program carried on is equally important.

You who enjoy health and recreation, although not possessed with much of this world's goods, give what you can towards this worth while cause.

THE LOCAL CEMETERY

Citizens of Champion and district might well consider some attention to the local cemetery so that its appearance may be fitting for the purpose for which it is created and maintained.

We look upon a cemetery in a different manner to some, for we believe that it is not a place of darkness but should be a place of light. In larger communities and no doubt here at intervals, fitting reference is made to the sacrifices made by the soldiers in the last war and rightly so but too often the lives of those who pioneered districts, and made their sacrifices in a humbly way are forgotten. In several centres community services are held once a year in the local cemetery at which the churches and the councils co-operate to commemorate the memory of the pioneer. We would hope to institute such a service here later.

Champion council with the assistance of the Harmony council might well consider taking the matter up from a municipal point of view and making the local cemetery as attractive as its situation will permit. A person could be employed to cut the grass and keep everything in neat order, visiting the cemetery at intervals, at little cost and as with other civic improvements, it would bring dividends in praise from the general public, and in this instance by paying respect to the memory of those who did their share towards community efforts.

DAILY QUOTATIONS

The reward of one duty is the power to fulfill another.
Ye are the light of the world. A city that is set on a hill cannot be hid.

Without courage there cannot be truth, and without truth there can be no other virtue.

How strange that I, not born but bred
Upon the land today should find
A rain-black field with furrows spread
Precisely parallel behind
Their plow arcing as a note
Dropped liquid from a thrasher's throat.

The opportunity is often lost in deliberating.

A. L. Searle \$1000

Farmers' Essay

The Searle Grain Company Ltd. announces that the chairman of their Board of Directors Mr. A. L. Searle, has contributed \$1000 for a Prairie Farmers' essay competition. The first prize is \$250.00; the second prize \$150.00; and the third prize is \$100.00, with the balance of \$500.00 to be divided between the remaining essays that are considered worthy of a prize. Any farmer over 21 years of age, farming in any part of Manitoba, Saskatchewan or Alberta is eligible. The prizes will be awarded for the best essays describing methods or practices concerning the production or management of crops or land or farm machinery, and which methods the contestants are actually using, and which they have found to be useful and profitable. (The competition does not refer to livestock production or management.) Preference will be given to practical and methods that are not at present in general use, but which could be used by a large number of farmers. Essays should be forwarded to the Searle Grain Company, Ltd., not later than June 15th. The judging will be done by the Universities of Alberta, Saskatchewan and Manitoba, for their respective provinces, and the Dominion Experimental Farms, at Ottawa. Will be the final judge for placing the higher prizes.

Arrangements will be made to publish these essays containing information that may be of value to all farmers.

BARONS

W. I. held their meeting at the home of Mrs. Hood. The meeting was well attended, with several visitors.

First baseball practice of the season was held on Sunday, with a good turnout. Barons will have another good baseball team this year.

Dated this 1st day of April, 1939.
HERBERT J. MABER,
Vulcan, Alberta,
Solicitor for the Administrator.

Educational Standards

In the fall and spring of 1938-39 a large number of school districts were overburdened with debentures, bank loans for past expenditures, and salary debts to teachers. At that time more than 400 schools were in default with debenture payments.

In many areas the capacity of the people to pay taxes is simply not existent and still the children are there and must be given an education. Already there are in Alberta, school districts where the indebtedness to teachers runs as high as \$1,000. Total arrears of teachers' salaries in Alberta in the fall and spring of 1935-36 exceeded a quarter of a million dollars. In Saskatchewan the amount of teachers' salaries outstanding is over two million dollars; i. e., about eight times as bad as Alberta.

The present Administration has reduced the Provincial debt in the year 1938 by \$1,715,824.32 that is: from \$18,780,041.28 to \$17,064,216.96. Inquiries and questions on the education system are invited. Address communication to The Chronicle. (More about Educational Standards next week.)

PETER DAWSON.

Thirty five people met at the home of Mr. Jasper Root at Kinsmen on Tuesday, April 25th and heard addresses from Mrs. Green of Enchant and the Hon. Peter Dawson, M.L.A.

A capacity crowd greeted the Hon. Peter Dawson at Yewwood school Friday evening April 21, and listened to an address on the business administration of the Government.
